PROFESSIONAL SUMMARY

BS Computer Science student and full-stack web developer building practical web apps with Next.js, React, Supabase, PostgreSQL, PHP/MySQL, Tailwind CSS, and Vercel. Experienced in dashboards, booking flows, admin tools, responsive UI, deployment checks, and AI-assisted product features.

SKILLS

Frontend: Next.js, React, TypeScript, JavaScript, Tailwind CSS, Bootstrap, responsive UI, dashboards

Backend and Data: Supabase, PostgreSQL, PHP, MySQL, Node.js, Express, REST APIs, authentication, CRUD systems

Tools and Design: Git, GitHub, Vercel, Cloudflare Turnstile, Figma, Adobe Photoshop, Adobe Illustrator, NC III Graphic Design

EXPERIENCE

Officium Inc. / Marajo Group - Web Developer Intern

2026 - Present

Next.js, React, Supabase, PostgreSQL, Vercel, Tailwind CSS

- Develop and support production-facing web features across frontend and backend tasks, including dashboards, booking flows, responsive pages, and deployment checks.
- Handle layout refinements, integration tasks, and maintenance updates while gaining real-world full-stack development experience.

SELECTED PROJECTS

Marajo Group Real Estate Platform

2026 - Present

Next.js, Supabase, PostgreSQL, Vercel. Built property listings, booking-system improvements, admin dashboard functionality, responsive UI updates, and deployment work.

PharSayo Medication Management PWA

2026

PWA, React, AI, Healthcare. Created a barangay health medication tool with role-based access, medication scanning, adherence tracking, and dashboards.

Suri.AI Fact-Checking Platform

2026

Next.js, TypeScript, Node.js, Express, Anthropic API. Built a hackathon prototype that checks submitted claims and surfaces credible or debunked article matches through an AI-assisted backend.

Personal Portfolio

2026

Next.js, TypeScript, Tailwind CSS, Vercel, Gemini API. Developed a public portfolio with projects, certificates, resume access, GitHub activity, chatbot support, and a canvas mini game.

QUACC Child Care Center System

2025

PHP, MySQL, Bootstrap. Implemented admin, staff, and guardian workflows with file uploads, password hashing, OTP verification, and backend CRUD functionality.

Assignify and BasuCash Web Apps

2025 - 2026

Task management, finance dashboard, web app. Built focused dashboard concepts for tracking academic assignments, cash flow, expenses, and simple financial records.

EDUCATION

University of Makati - BS Computer Science

2025 - 2029

Makati City. Coursework and portfolio work focused on full-stack web systems, databases, deployment, and practical software projects.

Makati High School - TVL ICT Programming

2023 - 2025

NC III Graphic Design. Built a foundation in programming, interface work, visual layout, and computer systems.

TRAINING AND CERTIFICATIONS

NC III Graphic Design - TESDA, May 2025 | Microcadd / TESDA Graphic Design Training - April-May 2025 | Makati Health Department Work Immersion - March 2025 | Batang Techno Hackathon - Participant, March 2026 | AI Tech 2.0 - Participant, April 2026 | InfoTechnOlympics Web Design - Participant, October 2025
